Newly submitted claims 48, 49, 51-53, 55-58, 71, 72 and 80-90 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the instantly claimed print medium having three layers with a substrate as a base is distinct and independent from the examined claims of two layers. Furthermore, said three layers such as claims 11 and 60 were non-elected invention.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 48, 49, 51-53, 55-58, 71, 72 and 80-90 withdrawn from consideration as being directed to a non-elected invention. Applicant's response is non-responsive. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a **TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS**, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. Since this application has been granted special status under the accelerated examination program, **NO** extensions of time under 37 CFR 1.136(a) will be permitted.

Claim 85 contains a typo, alumnium.

Chu et al (not Chen et al which was typo) are inventors of US Pat. 6,375,320 as pointed out by applicant.

A proper terminal disclaimer is acknowledged.
